Notes
(i)   These programme regulations should be read in conjunction with the University's Undergraduate Progress Regulations and Examination Conventions.
(ii)   All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.
(iii)   Unless otherwise stated under 'Type', modules are not core.
(iv)   A compulsory module is a module which a student is required to study.
(v)   A core module is a module which a student must pass, and in which a fail mark may neither be carried nor compensated; such modules are designated by the board of studies as essential for progression to a further stage of the programme or for study in a further module.
(vi)   All modules are delivered in Linear mode unless stated otherwise.
(vii)   Where a module is subject specific, code M refers to modules in Mathematics and code S refers to modules in Statistics.
(viii) To qualify for the degree of Master of Mathematics and Statistics (MMathStat) with Honours, candidates shall study modules with a total credit value of at least 180 with subject code 'S', including the Stage 4 project, in the lists of modules at Stages 2, 3 and 4. To qualify for the degree of Master of Mathematics (MMath) with Honours, candidates shall study modules with a total credit value of at least 180 with subject code 'M', including the Stage 4 project, in the lists of modules at Stages 2, 3 and 4.
(ix)   Students are not recruited to 1168/1169U. Rather a G103/GGC3 candidate may transfer to 1168/1169U by the end of week 5 of Semester 2 of Stage 2, subject to the agreement of the Degree Programme Director.
(x)   If a candidate meets the requirements for one of the three year BSc degrees, Mathematics (G100), Mathematics & Statistics (GG13) or Statistics (G300) they may transfer to that programme at any time before the start of the Semester 2 examination period in Stage 3.
(xi)   Programme transfers for Tier 4 students may be restricted by current Tier 4 rules. Please refer to the Visa Team for advice.
