5. Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

For the purpose of professional accreditation, the University's Learning, Teaching and Student Experience Committee has approved a variation in Undergraduate Examination Conventions to the effect, to be awarded an accredited honours degree;

- the maximum number of credits that may be compensated over the degree programme is not to exceed 30.
- Core modules, Individual and group projects worth 20 credits or more cannot be compensated
- No modules in your final year can be condoned.

Any student not satisfying the accreditation requirements, but satisfying University's Degree and Assessment regulations, will have the opportunity to be awarded a non-accredited honours degree with its classification based on the overall final stage averages beyond stage one.

6. Degree classification

Candidates will be assessed for degree classification on the basis of all the modules taken at Stages 2, 3 and 4 with the weighting of the stages being 1:2:3 for Stage 2, Stage 3 and Stage 4 respectively.
