**Programme Regulations: 2021/22** 

#### **Programme Titles:**

Degree of Bachelor of Engineering with Honours in Electrical and Electronic Engineering - UCAS Code: H607 (with Foundation Year – UCAS Code: H604)

Degree of Bachelor of Engineering with Honours in Electrical and Electronic Engineering with Placement Year - Code: 1182U

#### Notes

- (i) These programme regulations should be read in conjunction with the University's Taught Programme Regulations.
- (ii) All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.
- (iii) A compulsory module is a module which a student is required to study.
- (iv) All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.
- (v) If a candidate meets the requirements for the four year degree, MEng with Honours in Electrical and Electronic Engineering (H605) they may transfer to that programme at any time before the start of Stage 3.
- (vi) Programme transfers for Tier 4 students may be restricted by current Tier 4 rules. Please refer to the Visa Team for advice.

#### 1. Stage 0

Candidates who do not meet the requirements for entry into Stage 1 may with approval of the Degree Programme Director commence this degree programme at Stage 0 and shall proceed under the regulations relating to Stage 0.

### 2. Stage 1

All candidates shall take the following compulsory modules:

| Code    | Descriptive title                       | Total   | Credits | Credits | Level |
|---------|---|---------|---------|---------|-------|
|         |   | Credits | Sem 1   | Sem 2   |       |
| ENG1001 | Engineering Mathematics I               | 20      | 10      | 10      | 4     |
| ENG1002 | Sustainable Design, Creativity, &       | 30      | 10      | 20      | 4     |
|         | Professional Skills                     |         |         |         |       |
| ENG1003 | Electrical and Magnetic Systems         | 15      | 15      |         | 4     |
| ENG1004 | Electronics & Sensors                   | 10      |         | 10      | 4     |
| ENG1005 | Thermofluid Mechanics                   | 15      | 5       | 10      | 4     |
| ENG1006 | Properties and Behaviour of Engineering | 15      | 15      |         | 4     |
|         | Materials                               |         |         |         |       |
| ENG1007 | Mechanics I                             | 15      | 5       | 10      | 4     |

## 3. Stage 2

### (a) All candidates shall take the following compulsory modules:

| Code    | Descriptive title                          | Total   | Credits | Credits | Level |
|---------|--|---------|---------|---------|-------|
|         |  | Credits | Sem 1   | Sem 2   |       |
| EEE2007 | Computer Systems and Microprocessors       | 20      | 10      | 10      | 5     |
| EEE2008 | Project and Professional Issues            | 20      |         | 20      | 5     |
| EEE2009 | Signals and Communications                 | 20      | 20      |         | 5     |
| EEE2014 | Semiconductor Devices and Analogue         | 20      | 20      |         | 5     |
|         | Electronics                                |         |         |         |       |
| EEE2015 | Electromagnetic Fields and Waves           | 10      |         | 10      | 5     |
| ENG2026 | Automatic Control Systems                  | 10      |         | 10      | 5     |
| ENG2025 | Digital Electronics                        | 10      |         | 10      | 5     |
| ENG2029 | Introduction to Electrical AC Machines and | 10      |         | 10      | 5     |
|         | Drives                                     |         |         |         |       |

### 4. Year 3 (Placement Year)

On completion of Stage 2 and before entering Stage 3, candidates may as part of their studies for the degree spend a year in a placement with an approved organisation. Permission to undertake a placement is subject to the approval of the Degree Programme Director. Students who are required to re-sit their Stage 2 assessment must delay the start of their placement until they have done so. Students who fail Stage 2 may not complete a placement year.

| Code    | Descriptive title                     | Total<br>Credits | Credits<br>Sem 1 | Credits<br>Sem 2 | Level |
|---------|---------------------------------------|------------------|------------------|------------------|-------|
| NCL3000 | Careers Service Placement Year Module | 120              | 60               | 60               | 6     |

### 5. Stage 3

### (a) All candidates shall take the following compulsory modules:

| Code    | Descriptive title                         | Total   | Credits | Credits | Level |
|---------|---|---------|---------|---------|-------|
|         |   | Credits | Sem 1   | Sem 2   |       |
| ENG2001 | Accounting, Finance and Law for Engineers | 10      | 5       | 5       | 5     |

# (b) All candidates shall take **one** of the following optional modules:

| Code    | Descriptive title                          | Total   | Credits | Credits | Level |
|---------|--|---------|---------|---------|-------|
|         |  | Credits | Sem 1   | Sem 2   |       |
| EEE3095 | Individual Project and Dissertation (BEng) | 40      | 20      | 20      | 6     |
| EEE3096 | Individual Project and Dissertation (BEng) | 40      | 10      | 30      | 6     |
| EEE3097 | Individual Project and Dissertation (BEng) | 40      | 30      | 10      | 6     |

Last Updated: 10/05/2021 15:53

(c) All candidates shall take optional modules normally selected from the following list so that the total number of credits is 120:

| Code    | Descriptive title                          | Total   | Credits | Credits | Level |
|---------|--|---------|---------|---------|-------|
|         |  | Credits | Sem 1   | Sem 2   |       |
| EEE3001 | Linear Controller Design and State Space   | 10      | 10      |         | 6     |
|         | Analysis                                   |         |         |         |       |
| EEE3002 | Electrical Machines                        | 10      | 10      |         | 6     |
| EEE3003 | Introduction to the Basics of Modern Power | 10      | 10      |         | 6     |
|         | Electronics                                |         |         |         |       |
| EEE3004 | Digital Signal Processing                  | 10      | 10      |         | 6     |
| EEE3008 | Industrial Automation and PLCs             | 10      | 10      |         | 6     |
| EEE3009 | Real Time and Embedded Systems             | 10      |         | 10      | 6     |
| EEE3011 | Electric Drives                            | 10      |         | 10      | 6     |
| EEE3013 | Image Processing and Machine Vision        | 10      |         | 10      | 6     |
| EEE3014 | Power System Operation                     | 10      |         | 10      | 6     |
| EEE3015 | Telecommunication Networks                 | 10      |         | 10      | 6     |
| EEE3016 | Photonics                                  | 10      |         | 10      | 6     |
| EEE3018 | Digital Control Systems                    | 10      |         | 10      | 6     |
| EEE3020 | Electronic Devices                         | 10      | 10      |         | 6     |
| EEE3021 | Renewable Energy Systems and Smart Grids   | 10      |         | 10      | 6     |

With the approval of the Degree Programme Director alternative optional modules to those listed above may be selected.

#### 6. Assessment Methods

Details of the assessment pattern in each module are explained in the module outline. To satisfy IET accreditation requirements, a module comprising two assessment modes (coursework and examination) that assess different learning outcomes and each mode contributes more than 30% to the overall module mark, can only be passed if neither assessment mode is awarded a mark that is no more than 10% below the normal module pass mark.

#### 7. Subject to University Approval: Compensation and Condonement

For students who started stage one from 2018/19, the Engineering Council's policy on compensation and condonement will apply to marks awarded for modules at all stages, to satisfy IET accreditation requirements. To be awarded an accredited honours degree, only a maximum of 30 credits can be compensated over the duration of the degree programme. Furthermore, the condonement policy does not allow the failure of any compulsory or optional module on the degree programme, where the final mark is 10 percentage points or more below the pass mark.

Any student not satisfying IET accreditation requirements, but satisfying University's Degree and Assessment regulations, will have the opportunity to be awarded a non-accredited honours degree with its classification based on the overall final stage averages beyond stage one.

### 8. Degree classification

Candidates will be assessed for degree classification on the basis of all the modules taken at Stages 2 and 3 with the weighting of the stages being 1:3 for Stage 2 and Stage 3 respectively.
