* These are the Teachers’ Standards for use in schools in England from September 2012. The standards define the minimum level of practice expected of trainees and teachers from the point of being awarded qualified teacher status (QTS). The Teachers’ Standards are used to assess all trainees working towards QTS, and all those completing their statutory induction period. They are also used to assess the performance of all teachers with QTS who are subject to The Education (School Teachers’ Appraisal) (England) Regulations 2012, and may additionally be used to assess the performance of teachers who are subject to these regulations and who hold qualified teacher learning and skills (QTLS) status.
