Programme Regulations: 2022/23

### **Programme Titles:**

Degree of Master of Science in Microelectronics: Systems and Devices - Code: 5393F

## Degree of Master of Science in Electronic Engineering - Code 5468F\*

#### Notes:

- (i) These programme regulations should be read in conjunction with the University's Taught Programme Regulations.
- (ii) All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.
- (iii) A compulsory module is a module which a student must take.
- (iv) \*Programme title "Master of Science in Microelectronics" code 5060F, is only available to candidates who commenced their studies up to and including September 2018.

# 1. Programme structure

- (a) The programme is available for study in full-time mode only.
- (b) The period of study for full-time mode shall be 1 year starting in September.
- (c) The programme comprises modules to a credit value of 180.
- (d) All candidates shall take the following compulsory modules:

| Code    | Descriptive title              | Total   | Credits | Credits | Credits | Level | Туре  |
|---------|--------------------------------|---------|---------|---------|---------|-------|-------|
|         |                                | Credits | Sem 1   | Sem 2   | Sem 3   |       |       |
| EEE8088 | Reconfigurable Hardware Design | 20      |         | 20      |         | 7     | Block |
| EEE8087 | Real Time Embedded Systems     | 20      | 20      |         |         | 7     | Block |
| EEE8097 | Individual Project             | 60      |         | 10      | 50      | 7     |       |
| EEE8123 | Advanced Electronic Devices    | 20      | 20      |         |         | 7     | Block |
| EEE8124 | Low-Power VLSI Design          | 20      |         | 20      |         | 7     | Block |
| EEE8125 | Advanced Device Fabrication    | 20      |         | 20      |         | 7     | Block |
| EEE8127 | Microelectronics Design Tools  | 20      | 20      |         |         | 7     | Block |

### 2. Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

For the purpose of professional accreditation, the University's Education Committee has approved a variation in Postgraduate (Taught) Examination Conventions to the effect that a candidate who passes all core modules and fails up to 20 credits of non-core modules is recommended, as of right, for the award of an appropriate Master's degree or Postgraduate Diploma, provided that no mark is below 40 and the weighted average mark for all modules and all non-modular aggregated assessment is at least 50.

\*Degree of Master of Science in Electronic Engineering - Code: 5468F, is a non-accredited Masters degree title awarded where a candidate only meets the requirements of the University's Taught Programme Regulations and Examination Conventions and not the requirements of accreditation.
