

Programme Regulations: 2023/24

Programme Title: CERTIFICATE OF HIGHER EDUCATION
INTO NEWCASTLE UNIVERSITY INTERNATIONAL YEAR ONE IN ENGINEERING

Code: 2943F

Notes

- (i) *These programme regulations should be read in conjunction with the University's Taught Programme Regulations.*
- (ii) *All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.*
- (iii) *Unless otherwise stated under 'Type', modules are not core.*
- (iv) *A compulsory module is a module which a student is required to study.*
- (v) *A core module is a module which a student must pass, and in which a fail mark may neither be carried nor compensated; such modules are designated by the board of studies as essential for progression to a further stage of the programme or for study in a further module. A final stage module cannot be deemed to be core.*
- (vi) *All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.*

PROGRAMME STRUCTURE

(a) The International Year One Engineering programme will be offered with a September start date each year. The table below shows the module codes.

(b) All candidates shall take the following modules, all of which are compulsory:

Code	Descriptive title	Total Credits	Credits Sem 1	Credits Sem 2	Level
INU1120	English for Academic Purposes (EAP) for International Year One Engineering	20	10	10	4
INU1121	Engineering Mathematics for International Year One Engineering	20	10	10	4
INU1122	Sustainable Design, Creativity and Professionalism for International Year One Engineering	30	10	20	4
INU1123	Electrical and Magnetic Systems for International Year One Engineering	15	15	0	4
INU1124	Electronics and Sensors for International Year One Engineering	10	0	10	4
INU1125	Thermofluid Mechanics for International Year One Engineering	15	5	10	4

INU1126	Engineering Materials for International Year One Engineering	15	15	0	4
INU1127	Mechanics for International Year One Engineering	15	5	10	4

Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

Re-sit assessment

As an exception to the University Examination Conventions re-assessment may take place before the August/September period on the recommendation of an interim progress board.

For the English for Academic Purposes module, the following will apply:

The required pass mark for the module is 60. The required competence level (as determined by UKVI regulations) in each of the four subskills (reading, listening, writing and speaking) is 55. A student will be granted one resit opportunity in either of the following cases:

If a student fails to achieve the required pass mark (60) for the module. In this case, the student will only be required to resit those subskills where they have failed to achieve a subskill pass mark of 60. The result achieved in the resit for the subskill in this case will be uncapped, but the overall module result following the resit will be capped at the pass mark of 60.

If a student has achieved a module mark of 60 or more but has one or more subskill mark of less than 55, then in line with Programme Regulations the student has not passed the module. In this case, the student will be required to resit those subskills where they have failed to achieve the competence level of 55. The result achieved will be uncapped but the overall module result following the resit will be capped at the pass mark of 60. In both cases, marks of over 60 achieved in any subskill at a first attempt will need to be capped to ensure overall module marks following either resit case do not exceed 60. University selectors may be provided with uncapped marks so that a decision can be made based on the student's actual English language competence level.

Progression to Newcastle University degree programmes

Performance higher than a basic pass (in both academic modules and English for Academic Purposes) will be required for entry into Newcastle University degree programmes as specified in the progression requirements for specific degree programmes.
