Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

Re-sit assessment

As an exception to the University Taught Programme Regulations re-assessment may take place before the August/September period on the recommendation of an interim progress board.

For the English for Academic Purposes module, the following will apply:

Note:

The required pass mark for the module is 60. The required competence level (as determined by UKVI regulations) in each of the four subskills (reading, listening, writing and speaking) is 55.

A student will be granted one resit opportunity in either of the following cases:

If a student fails to achieve the required pass mark (60) for the module. In this case, the student will only be required to resit those subskills where they have failed to achieve a subskill pass mark of 60. The result achieved in the resit for the subskill in this case will be uncapped, but the overall module result following the resit will be capped at the pass mark of 60.

If a student has achieved a module mark of 60 or more but has one or more subskill mark of less than 55, then in line with Programme Regulations the student has not passed the module. In this case, the student will be required to resit those subskills where they have failed to achieve the competence level of 55. The result achieved will be uncapped but the overall module result following the resit will be capped at the pass mark of 60.

In both cases, marks of over 60 achieved in any subskill at a first attempt will need to be capped to ensure overall module marks following either resit case do not exceed 60.

University selectors may be provided with uncapped marks so that a decision can be made based on the student's actual English language competence level.

Progression to Newcastle University degree programmes

Performance higher than a basic pass (in both academic modules and English for Academic Purposes) will be required for entry into Newcastle University degree programmes as specified in the progression requirements for specific degree programmes.
