## **2. Assessment methods**

Details of the assessment pattern for each module are explained in the module outline.

## **3. Other**

This programme is designed to produce graduates who will be expected to be equally capable in theoretical and practical aspects of their subject and it is essential that only students of equally high calibre in both aspects of the programme are eligible for merit and distinction awards. Therefore, the regulations are as follows:

### *Course Requirements*

A number of areas in which specific regulations have been defined for this programme, and approved by the Faculty Education Committee, are documented below, and in these areas these provisions take precedence over other University regulations.

### *Progression within the MSc degree in Cyber Security*

Three assessed components comprise the MSc degree in Cyber Security:

- Component 1: Six 10-credit modules, three 20 credits modules, in Semester 1 and 2
- Component 2: 60-credit individual project with dissertation module, in Semester 3

In order to be permitted to start Component 2 a candidate must

- obtain a weighted average mark for Component 1 of at least 50,
- and have failed no more than 20 credits,
- and have not failed any core module.

### *Award of the MSc degree in Cyber Security*

To obtain the MSc degree, candidates must satisfy the examiners in both assessed components as follows.

- A student will be recommended for the *award of MSc with Distinction* if they have achieved a pass mark in 180 credits with a weighted average mark across all 180 credits of at least 70 and have a Component 2 mark of at least 70.
- A student will be recommended for the *award of MSc with Merit* if they have achieved a pass mark in 180 credits with a weighted average mark across all 180 credits of at least 60 and have a Component 2 mark of at least 60.
- A student will be recommended for the *award of MSc* if they have achieved a pass mark in at least 160 credits with a weighted average mark across all 180 credits of at least 50.
