

Programme Regulations: 2025/26

Programme Titles:

Degree of Master of Science in Data Science - Code 5395F/P

Notes

- (i) These programme regulations should be read in conjunction with the University's Taught Programme Regulations.
- (ii) A compulsory module is a module which a student must take.
- (iii) A core module is a module a student must pass.
- (iv) A core module for PSRB accreditation is a module a student is required to obtain accreditation.
- (v) All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.
- (vi) **Note – 5395P is suspended for 2025/26 entry.**

1. Programme Structure:

- a) The programmes are available for full-time study only and part-time students completing in 2025/26.
- b) The period of study for Masters for full-time mode shall be 1 year starting in September.
- c) The Master programme comprises modules to a credit value of 180. Candidates on the Master programme shall take the following compulsory modules:

Code	Descriptive title	Total Credits	Credits Sem 1	Credits Sem 2	Credits Sem 3	Level	Core for PSRB Accreditation	Core for outcomes	Mode
CSC8626	Data Visualization	10	10			7	Core		Block
CSC8628	Image Processing	10	10			7	Core		Block
CSC8632	Data Science in the Wild (Group Project)	10		10		7	Core		Block
CSC8635	Machine Learning with Project	10	10			7	Core		Block
CSC8637	Deep Learning	10		10		7	Core		Block
CSC8639	Project and Dissertation in Data Science	80		20	60	7	Core	Core	Linear
MAS8600	Graduate Foundations of Statistics and Data Science	30	30			7	Core		Linear

(a) Candidates shall select a first optional module from the following:

<i>Code</i>	<i>Descriptive title</i>	<i>Total Credits</i>	<i>Credits Sem 1</i>	<i>Credits Sem 2</i>	<i>Credits Sem 3</i>	<i>Level</i>	<i>Core for PSRB Accreditation</i>	<i>Core for outcomes</i>	<i>Mode</i>
CSC8636	Complex Data Visualization	10		10		7			Block
CSC8645	Advanced AI	10		10		7			Block

(b) Candidates shall select a second optional module from the following:

<i>Code</i>	<i>Descriptive title</i>	<i>Total Credits</i>	<i>Credits Sem 1</i>	<i>Credits Sem 2</i>	<i>Credits Sem 3</i>	<i>Level</i>	<i>Core for PSRB Accreditation</i>	<i>Core for outcomes</i>	<i>Mode</i>
CSC8101	Engineering for AI	10		10		7			Block
CSC8646	Generative AI for Business	10		10		7			Block

2. Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

3. Other

This programme is designed to produce graduates who will be expected to be equally capable in theoretical and practical aspects of their subject and it is essential that only students of equally high calibre in both aspects of the programme are eligible for merit and distinction awards. Therefore, the regulations are as follows:

Course requirements

A number of areas in which specific regulations have been defined for this programme, and approved by the Faculty Education Committee, are documented below, and in these areas these provisions take precedence over other University regulations.

Progression within the MSc degree in Data Science

Two assessed components comprise the MSc degree in Data Science:

- Component 1: Nine 10-credit modules, and a 10-credit group project module.
- Component 2: 80 credits individual project with dissertation module.

In order to be permitted to start Component 2 a candidate must:

- Obtain a weighted average mark for Component 1 of at least 50 and have failed no more than 20 credits.

Award of the MSc degree in Data Science

To obtain the MSc degree, candidates must satisfy the examiners in both assessed components as follows.

- A student will be recommended for the *award of MSc with Distinction* if they have achieved a pass mark in 180 credits with a weighted average mark across all 180 credits of at least 70 and have a Component 2 mark of at least 70.
- A student will be recommended for the *award of MSc with Merit* if they have achieved a pass mark in 180 credits with a weighted average mark across all 180 credits of at least 60 and have a Component 2 mark of at least 60.
- A student will be recommended for the *award of MSc* if they have achieved a pass mark in at least 160 credits with a weighted average mark across all 180 credits of at least 50.
