The Professional and Careers Placement years, as well as the International Study Year, do not formally contribute to the degree classification. However, candidates on these awards must pass their placement year/international study year to graduate with the degree title (BSc Hons) in Cognitive Science with Professional Placement or BSc (Hons) in Cognitive Science with Placement Year or BSc (Hons) in Cognitive Science with International Study Year.

7. Exemptions to the University's Taught Programme Regulations

The BSc Honours in Cognitive Science with Professional Placement has a University exemption from the University's Taught Programme Regulations in relation to the offer of a resit opportunity for the Supervisor Report, which forms part of the assessment regime of PSY3000 – see Section 3(d). In the event of any inconsistency between the programme and University regulations in relation to the above section, the programme regulations take precedence over the University regulations.
