Notes

- i These programme regulations should be read in conjunction with the University's Taught Programme Regulations.*
- ii All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.*
- iii Unless otherwise stated under 'Type', modules are not core.*
- iv A compulsory module is a module which a student is required to study.*
- v A core module is a module which a student must pass, and in which a fail mark may neither be carried nor compensated; such modules are designated by the board of studies as essential for progression to a further stage of the programme or for study in a further module.*
- vi All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.*
- vii Students are not recruited to 1178U or 1800U. Rather a F303 candidate may transfer to 1178U or 1800U by the end of week 5 of Semester 2 of Stage 3, subject to the agreement of the Degree Programme Director.*
- viii Programme transfers for Student Visa students may be restricted. Please refer to the Visa Team for advice.*
- ix Candidates who do not meet the accreditation requirements of the Degree of Master of Physics with Honours, code F303, and the Degree of Master of Physics with Honours in Physics with Placement Year, code 1178U and the Degree of Master of Physics with Honours with International Study Year Abroad, Code 1800U, will be awarded the appropriate unaccredited degree.*
