**Programme Titles:** 

Degree of Bachelor of Science with Honours in Computer Science – UCAS Code: G400

Degree of Bachelor of Science with Honours in Computer Science with Industrial Placement – UCAS Code: G401\*

Degree of Bachelor of Science with Honours in Computer Science with Industrial Placement – UCAS Code: 1946U

# Degree of Bachelor of Science with Honours in Computer Science with International Study Year – Code: 1898U

Notes

- (i) These programme regulations should be read in conjunction with the University's Taught Programme Regulations.
- (ii) All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years.
- (iii) Unless otherwise stated under 'Type', modules are not core.
- (iv) A compulsory module is a module which a student is required to study.
- (v) A core module is a module which a student must pass, and in which a fail mark may neither be carried nor compensated; such modules are designated by the board of studies as essential for progression to a further stage of the programme or for study in a further module. Unless otherwise stated, modules are not core.
- (vi) Programme transfers for Tier 4 students may be restricted by current Tier 4 rules. Please refer to the Visa Team for advice.
- (vii) All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.
- (viii) Programme coded G401 is withdrawn from entry as of September 2025.

## 1. Stage 1

#### (a) All candidates shall take the following compulsory modules:

| Code    | Descriptive title                         | Total   | Credits | Credits | Level | Туре |
|---------|---|---------|---------|---------|-------|------|
|         |   | Credits | Sem 1   | Sem 2   |       |      |
| CSC1031 | Fundamentals of Computing                 | 20      | 10      | 10      | 4     |      |
| CSC1032 | Computer Systems Design and Architectures | 20      | 10      | 10      | 4     |      |
| CSC1033 | Foundations of Data Science               | 20      | 10      | 10      | 4     |      |
| CSC1034 | Programming Portfolio 1                   | 30      | 30      |         | 4     |      |
| CSC1035 | Programming Portfolio 2                   | 30      |         | 30      | 4     |      |

#### 2. Stage 2

(a) All candidates shall take the following compulsory modules:

| Code    | Descriptive title                          | Total   | Credits | Credits | Level | Туре |
|---------|--|---------|---------|---------|-------|------|
|         |  | Credits | Sem 1   | Sem 2   |       |      |
| CSC2031 | Security Programming                       | 20      | 20      |         | 5     |      |
| CSC2032 | Algorithm Design and Analysis              | 10      | 10      |         | 5     |      |
| CSC2033 | Software Engineering Team Project          | 30      |         | 30      | 5     |      |
| CSC2034 | Introducing Contemporary Topics in         | 30      |         | 30      | 5     |      |
|         | Computing                                  |         |         |         |       |      |
| CSC2035 | Software Systems Design and Implementation | 30      | 30      |         | 5     |      |

#### 3. Intercalating Year

## (i) Industrial Placement - G401 and 1946U only

Upon completion of Stage 2 and before entering Stage 3, all candidates shall spend the equivalent of one academic year in a placement approved by the Placement Coordinator. If a candidate is not successful in

securing an approved placement, or fails the assessment of the placement year, then the candidate will be required to transfer to Stage 3 of G400.

| Code    | Descriptive title                          | Total   | Credits | Credits | Level | Туре |
|---------|--|---------|---------|---------|-------|------|
|         |  | Credits | Sem 1   | Sem 2   |       |      |
| ICM0043 | Intercalating Module for Computing Science | 120     | 60      | 60      | 6     |      |
|         | Programmes                                 |         |         |         |       |      |

#### (ii) International Study Year – 1898U only

On completion of Stage 2 and before entering Stage 3, candidates may as part of their studies for the degree spend a year abroad at an appropriate exchange partner institution. Permission to undertake a year abroad is subject to the approval of the Degree Programme Director. Students who are required to re-sit their Stage 2 assessment must delay the start of their placement until they have done so. Students who fail Stage 2 may not complete a year abroad.

| Code    | Descriptive title        | Total   | Credits | Credits | Credits | Level | Туре | Mode |
|---------|--------------------------|---------|---------|---------|---------|-------|------|------|
|         |                          | Credits | Sem 1   | Sem 2   | Sem 3   |       |      | ĺ    |
| ISY3000 | International Study Year | 120     | 60      | 60      | 0       | 6     |      |      |

#### 4. Stage 3

(a) All candidates shall take the following compulsory modules:

| Code    | Descriptive title                                  | Total<br>Credits | Credits<br>Sem 1 | Credits<br>Sem 2 | Level | Туре |
|---------|--|------------------|------------------|------------------|-------|------|
| CSC3094 | Major Project and Dissertation in Computer Science | 60               | Sem 1            | 60               | 6     |      |

## (b) All candidates shall select a further 60 credits of optional modules from the table below. Candidates may not select more than two 10 credit modules.

| Code    | Descriptive title                          | Total   | Credits | Credits | Level | Туре |
|---------|--|---------|---------|---------|-------|------|
|         |  | Credits | Sem 1   | Sem 2   |       |      |
| CSC3121 | Distributed Systems                        | 10      | 10      |         | 6     |      |
| CSC3131 | Development and Operations of Systems      | 20      | 20      |         | 6     |      |
| CSC3132 | Introduction to Quantum Computing          | 10      | 10      |         | 6     |      |
| CSC3231 | Game Design                                | 10      | 10      |         | 6     |      |
| CSC3232 | Gaming Technologies and Simulations        | 20      | 20      |         | 6     |      |
| CSC3431 | Introduction to BioDesign and Natural      | 20      | 20      |         | 6     |      |
|         | Computing                                  |         |         |         |       |      |
| CSC3432 | Biomedical Data Analytics and Al           | 20      | 20      |         | 6     |      |
| CSC3631 | Cryptography                               | 10      | 10      |         | 6     |      |
| CSC3632 | System and Network Security                | 20      | 20      |         | 6     |      |
| CSC3731 | Human Computer Interaction: Interaction    | 20      | 20      |         | 6     |      |
|         | Design                                     |         |         |         |       |      |
| CSC3831 | Computer Vision & Al                       | 20      | 20      |         | 6     |      |
| CSC3833 | Data Visualization and Visual Analytics    | 10      | 10      |         | 6     |      |
| NCL3007 | Career Development for Final Year Students | 20      | 10      | 10      | 6     |      |

#### 5. Assessment methods

Details of the assessment pattern for each module are explained in the module outline.

#### 6. Degree classification

Candidates will be assessed for degree classification on the basis of all the modules taken at Stages 2 and 3 with the weighting of the stages being 1:2 for Stage 2 and 3 respectively.
